## Hepatitis B Immunization Health History Form *All Students Must Complete*

The General Assembly of the State of Tennessee mandates that each public or private postsecondary institution in the state provide information concerning hepatitis B infection to all students matriculating for the first time. The law does not require that students receive vaccination for enrollment. Furthermore, the institution is not required by law to provide vaccination reimbursement for the vaccine.

### **Hepatitis B (HBV) Immunization**

Hepatitis B (HBV) is a serious viral infection of the liver that can lead to chronic liver disease, cirrhosis, liver cancer, liver failure, and even death. The disease is transmitted by blood and/or body fluids and many people will have no symptoms when they develop the disease. The primary risk factors for Hepatitis B are sexual activity and injecting drug use. This disease is completely preventable. Hepatitis B vaccine is available to all age groups to prevent Hepatitis B viral infection. A series of (3) doses of vaccine are required for optimal protection. Missed doses may still be sought to complete the series if only one or two have been acquired. The HBV vaccine has a record of safety and is believed to confer lifelong immunity in most cases.

\_\_\_\_\_ I hereby certify that I have read this information and **I have the entire series of the Hepatitis B vaccine.**

\_\_\_\_\_ I hereby certify that I have read this information and **I have elected not to receive the Hepatitis B vaccine.**
